Evaluation Compliance

The First 5 Nevada County Commission is exploring new ways of collecting and analyzing data from their funded programs. It is possible that we will seek unique identifiers for individuals served (could be first name, last initial, and date of birth) which will require clients to sign an agreement for the release of information. It is possible that we will ask grantees to enter data on an online database. We recognize that you have included a proposed plan for evaluation of your project, but it is possible we will negotiate with you about which outcomes will be reported to us, how data will be collected, which instruments you use, and the like. We will always seek reporting requirements and data collection that is the least burdensome for grantees to the extent possible. By signing below, you acknowledge that, if funded, you will be able to provide unique identifiers for clients served, you will be able to input data in an online database, and that you will work with First 5 Nevada County staff on developing an evaluation plan for your program that best fits our needs and yours. This plan will be completed no later than June 15, 2021.
